1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Robert J. Lauson on June 6, 2005.

The application has been amended as follows:

In the specification, on page 6, line 2 --The tubular material includes woven tubes interwoven with each other which do not compress more than 5 percent during wearing use of the helmet shell.-- has been inserted after "material."

2. Per the interview of June 6, 2005 the specification is amended to provide antecedent basis for the limitations of claim 7.

3. The following is an examiner's statement of reasons for allowance: the prior art references of record fail to teach the additional limitation of the multi-layer means constructed of materials enabling air to pass therealong and empty directly onto the face of a wearer.

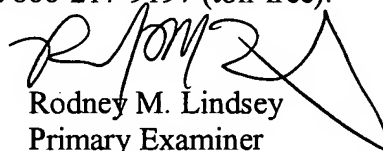

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Rodney M. Lindsey whose telephone number is (571) 272-4989. The examiner can normally be reached on M-F (8:30-5:00).
